

**PETER McCARTHY**  
CHAIRMAN  
PRINCIPAL CONSULTANT

MGeosc, BSc (Eng)  
FAusIMM (CP), MAICD

**EXPERTISE**

Peter's primary technical expertise is in mine planning, feasibility studies, technical assessments and valuations. His broad experience within the mining industry includes management, education, project development, mine production and contracting.

**SUMMARY OF EXPERIENCE**

With 40 years experience in the mining industry, Peter has been responsible for underground and open pit mine feasibility studies, mine valuations and technical studies for projects in Australasia, Asia, Europe and Africa. He has published many technical papers and articles in his areas of interest and has served as a director of three public companies.

Peter became a full time consultant in 1986 with the firm that is now AMC Consultants Pty Ltd. After a period running a related contract mining business he was appointed General Manager of the consultancy in 1990 and Managing Director in 1997, overseeing its growth into a significant international business. More recently, Peter was appointed Chairman of AMC in July 2009.

Beginning his career with CRA Ltd at Zinc Corporation in Broken Hill, he worked in various technical and production roles and later in mine planning and research. He then moved to Victoria and spent several years in project management and in lecturing at the Ballarat CAE (now University). As Senior Lecturer his achievements included designation of Ballarat as the Centre for Mining Education in Victoria, and the establishment of the successful Graduate Diploma in Mining course.

Peter has held Mine Manager's Certificates in Victoria and New South Wales and has degrees in Mining Engineering and Mineral Economics. He was President for 2007 and 2008 of The Australasian Institute of Mining and Metallurgy, and is currently a Non-Executive Director of Castlemaine Goldfields Limited and Non-Executive Chairman of Bendigo Mining Limited. He is a Life Member of the Sovereign Hill Museums Association.

Peter's full resume is available upon request.
